Power Engineering

1963 ANNUAL INDEX

VOLUME SIXTY-SEVEN

ATOMICS

Advancement of Nuclear Power, 1942-1962 ..... Jan 35
Turbine Oil Tests Have New Meanings for Nuclear Plants ..... June 53
Better Public Understanding At Peach Bottom Atomic Power Station ..... Aug 56
10-Mw Barge-Mounted Nuclear Power Plant Being Built by U.S. Army Aug 57
Cleaning Con Edison's Atomic Plant Took Four Years to Plan and Finish ..... Sept 51
Big Rock Point Nuclear Plant Will Help Develop Economic Fuels .. Oct 56
New Elk River Reactor Dedicated.. Dec 54

COMMUNICATIONS

Automatic Radio Paging System Ups Communication Efficiency ..... Nov 52

DIESEL

Diesel Pump Stations Bail Out Flooded Farmland in Florida .... Nov 65

ELECTRICAL CONVERSION

Monophase Approach Aids Vertical Substation Design ..... Jan 64
Utility Rebuilds and Expands 138-Kv Substation with Only Five Outages Feb 40
We're Trying Aluminum Substations in Rural Areas ..... June 45
Aluminum Is the New Angle in Substations ..... July 32
How Closed-Circuit TV Monitors Substation 8 Miles Away ..... Aug 63
A Reminder—Maintain Those Protective Relays ..... Aug 66
Solid-State Inverter Offers Precise A-C Motor Speed Control ..... Aug 70
Here's A Regulated Distribution Feeder on Wheels ..... Sept 46
Uninterrupted Power System with D-C Motor Emergency Drive .... Oct 65
Why Use Cable Trays in Large Transmission Substations? ..... Nov 63
Choose the Correct Rectifier Stack.. Dec 64

ELECTRICAL DISTRIBUTION

A Half Century of D-C Power Over Aluminum Rods ..... Jan 57
Winter Brings Distribution System Benefits ..... Jan 58
Industrial Power-Factor Correction Saves Money ..... Feb 59

ELECTRICAL GENERATION

Natural-Draft Cooling Towers—The Shape of Things to Come ..... Feb 50
Thermoelectric Power Generation
Part I—How Far Are We? Feb 64
Part II—Materials ..... Mar 56
Part III—What's Ahead? ... Apr 56
Coal-Fired Gas Turbine Being Developed By Bureau of Mines..... Mar 35
Another Step Toward A Practical Fuel Cell ..... Mar 50
Steam Power from the Earth ..... Apr 63
Which Is the Best Regulating and Excitation System? ..... May 56
Combined-Cycle with Unfired Boiler Has High Efficiency .... Aug 49; Sept 47
Operation Improved with Load and Frequency Control ..... Sept 35
Pumped-Hydro and Gas Turbine Units Can Complement Each Other Oct 53
Uninterrupted Power System with D-C Motor Emergency Drive ..... Oct 65
How To Make Total Use of Steam Plants for Economic Peaking Power ..... Dec 55

ELECTRICAL TRANSMISSION

34.5-kv Capacitors Solve Voltage Problems at Tomah ..... Jan 46

SUBJECT INDEX

Note that some of the articles are cross-referenced in order to give the total scope of power field coverage represented.

A Half Century of D-C Power Over Aluminum Rods ..... Jan 57
Another Big Boost to EHV Power Interconnected Operations ..... Jan 63
Here's A Different Steel Pile for Tower Footings ..... Feb 67
EEI Repo.ts No Foreseeable Economic Basis for Using EHV-DC Transmission ..... Mar 62
Symposium Reveals More EHV Engineering Data ..... Mar 66
High-Voltage D-C Transmission
Part I—An Early History .. Apr 41
Part II — Circuit Arrangements ..... May 49
Part III — System Arrangements and Economics .... June 51
Part IV—Progress in Systems July 55
Design Problem—Build A 69-Kv Line with Horizontal Insulators ..... Apr 52
New Zealand's 500-Kv D-C Submarine and Overhead System .... Apr 61
Serving the Industrial Load at Transmission Voltages ..... May 44
We Chose Hot-Stick Maintenance for 138-Kv Vibration Dampers ..... May 60
What's the Best Way to Patrol Transmission Lines ..... Sept 38
EHV—A Boon to Developing Countries ..... Sept 41
New Type ACSR Transmission Line Conductor Developed ..... Sept 62
How One Utility Company Holds Down Right-of-Way Costs ..... Oct 52
What's The Best Way to Plan for Power Pools and EHV Ties? .... Oct 59
This 220-Kv Line Goes Over Rough Terrain ..... Nov 57
New Technique Uses Balloons to String Line Conductors ..... Dec 45

ELECTRICAL UTILIZATION

Industrial Power-Factor Correction Saves Money ..... Feb 59
An A-C Method for Setting D-C Machine Brushes ..... Feb 61
Brushless Motor Uses Electronic Commutator ..... Mar 59
Solid-State Inverter Offers Precise A-C Motor Speed Control ..... Aug 70
Big Wheel Strips for Coal—Electrically ..... Oct 44

EXOTIC POWER

Thermoelectric Power Generation
Part I—How Far Are We? Feb 64
Part II—Materials ..... Mar 56
Part III—What's Ahead? ... Apr 56
Another Step Toward A Practical Fuel Cell ..... Mar 50

FUEL: FUEL AND ASH HANDLING; GAS HANDLING

Coal-Fired Gas Turbine Being Developed by Bureau of Mines .... Mar 35
High-Voltage D-C Transmission
Part I—An Early History .. Apr 41
Part II — Circut Arrangements ..... May 49
Part III — System Arrangements and Economics .... June 51
Part IV—Progress in Systems July 55
Economics of Coal Pipelines ..... May 54
Low Temperature Corrosion in Fuel Oil-Burning Boilers ..... June 41
World's Largest Acid-Proof Brick Chimney Goes Into Operation ... June 62
Double Concrete Chimney 800 Ft High for Bull Run Steam Plant .. July 51
Mechanical Dust Collectors for The Four Corners Power Plant ..... July 53
World's Biggest Dragline Ready to Strip-Mine this Fall ..... July 57
Chemical-Slurry Spray Retards Fireside Deposits and Corrosion ..... Sept 54
Big Wheel Strips for Coal—Electrically ..... Oct 44
New Process Provides Dustless Dumping of Flyash at Rivesville Nov 54
Refractory Lining Spots Erosion in Pulverized Coal Supply Line ..... Nov 73
Big Precipitator Program Started at Public Service Co. of Colorado .. Dec 42
Report on Energy Transportation Conference ..... Dec 44
No Special Foundation Needed for Lightweight Plastic Chimney .... Dec 46
Newest Coal-Handling Facility Can Load 20,000 Tons Per Hour .... Dec 52

GAS TURBINES

Coal-Fired Gas Turbine Being Developed by Bureau of Mines .... Mar 35
Combined-Cycle with Unfired Boiler Has High Efficiency .... Aug 49; Sept 47
Pumped-Hydro and Gas Turbine Units Can Complement Each Other Oct 53
Coal-Fired Gas Turbine Makes Its First 1500-Hr Trial Run ..... Nov 48

HYDRO POWER

Good Planning Makes German Pumped-Storage Plant Pay Off .. Jan 50
Plan World's Largest Reversible Pumped-Storage Hydro Station .. Jan 66
Rocky Reach Hydro Plant Has Many New Design Features .... Feb 56
Rocky Reach Hydro Pampers Columbia River Fish ..... Mar 48
Australia's Snowy Mountain Hydro Project ..... Mar 53
Sweden Repairs Concrete Dams with Sprayed-On Plastic Coating .... Apr 60
Work on American River Project in California Is Being Started ... June 55
Pumped-Storage Hydro Facility Serves as Giant Storage Battery.. Aug 42
Taum Sauk Hydro Starts Pumping Aug 62
Another Major Hydro Plant Is Dedicated ..... Sept 58
Pumped-Hydro and Gas Turbine Units Can Complement Each Other ..... Oct 53
300-Mw Pumped Storage Plant Goes into Operation in Wales ..... Dec 60

INSTRUMENTS, COMPUTERS, AND CONTROLS

Why Use Optical Alignment to Erect Large Turbogenerators? .. Jan 42
Turbine Supervisory Instruments Can Assure Safe Operation ..... Jan 55
Unattended Substation Alarm and Control Via Mobile-Radio Frequency ..... June 38
Centralized Control Means Big Savings for Maxwell Air Force Base July 48
How Close-Circut TV Monitors Substation 8 Miles Away ..... Aug 63
Operation Improved with Load and Frequency Control ..... Sept 35
Economic Power Dispatch Through Digital Telemetering and Analog Control ..... Sept 39
Power Relief Valve Sensing Unit Should Be in the Control Room .. Sept 40
Steam Generator Simulation by Real-Time Analog Computer ..... Oct 62
Steel Plant Automates for Better Feedwater Control ..... Oct 68
Mathematical Models Help Automate Iowa Power Pool Planning Nov 71
How Often Does Lightning Strike? Dec 58
Bumpless Transfer Between Automatic and Manual Control ..... Dec 61

District Sales Offices

OFFICERS AND BUSINESS STAFF

President — Arthur L. Rice, Jr.
Vice President — Edwin C. Prouty, Sr.
Vice President and General Sales Manager — James B. Tafel
Eastern Sales Manager — Oscar Wilda
Secretary and Director of Circulation — Edwin C. Prouty, Jr.
Promotion Manager — John P. Kaiser
Production Director — Salvatore Pisano
Production Manager — Earl R. Noren
Assistant Advertising Manager — Josephine Geor
Research Manager — Margaret Hoagland
Research Associate — Joan Brownlee

DISTRICT MANAGERS

Chicago 3, Ill. — Robert R. Anderson, Tom Hanley
110 S. Dearborn St. — DEarborn 2-1508
Margaret Conerty, Office Administrator

New York City & New England — Warren V. Smith
Caroline Friz, Office Administrator
2608 Graybar Bldg.
New York 17, N.Y. — MUrray Hill 5-3779

Middle Atlantic — Robert J. Kiesel
1235 Jericho Road
Abington, Pa. — TUrner 7-6688

East North Central — William B. Davis
2120 Shenandoah Road
Toledo, Ohio — JEfferson 6-7947

Pittsburgh 22, Pa. — Robert J. Kiesel
1039 Oliver Bldg.—Mellon Square COurt 1-4940

California — Connie J. Grabb, Jr.
1145 Wellington Ave.
Pasadena, Calif. — MUrray 1-6004

Southeast — J. Sidney Crane
22 Eighth St., N. E.
Atlanta 9, Georgia — TRinity 2-6720

WESTERN SALES OFFICES

McDonald-Thompson Offices:

Seattle 4, Wash. — Harry Abney
1008 Western Ave. — MAin 3-3766

Portland 1, Oregon — Frank Eaton
2035 S. W. 58th Ave. — CApital 2-5146

Denver 3, Colo. — Robert Heidersbach
840 Lincoln St. — 825-3325

Houston 6, Texas — Frank Vickrey
Room 214, 3217 Montrose Blvd. — Jackson 9-6711

Dallas 19, Texas — Parker Harris
2727 Oak Lawn Ave. — LAkeside 1-1266

Tulsa 14, Oklahoma — Max C. Nelsen
2570 S. Harvard — Riverside 2-9961

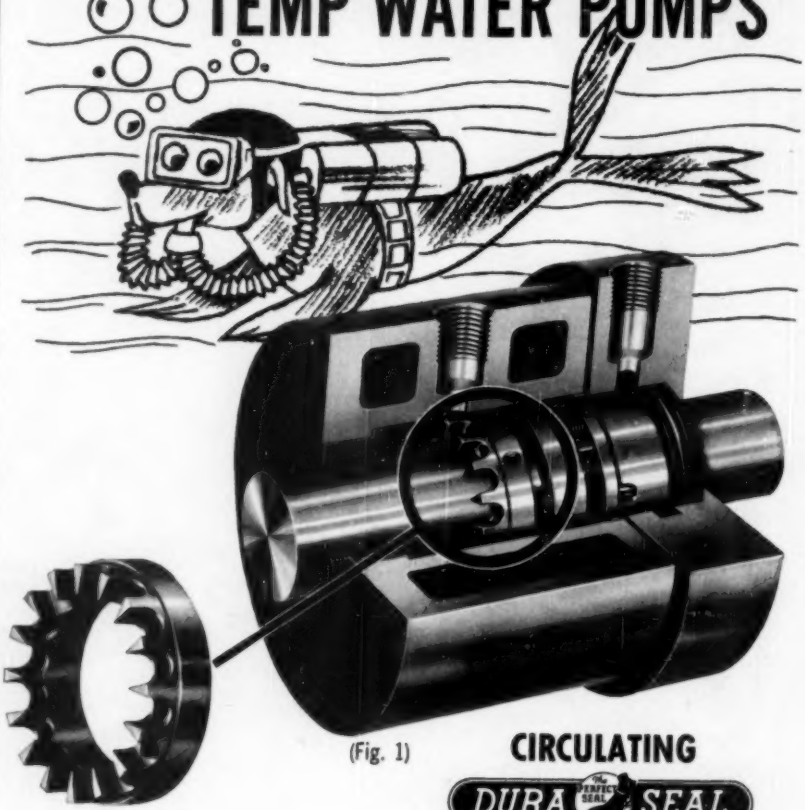
GOOD NEWS!
FOR SEALING HIGH TEMP WATER PUMPS



(Fig. 1)

(Fig. 2)

CIRCULATING DURA SEAL FOR HOT WATER SERVICE

IF YOU ARE in "Hot Water" because of difficulties in sealing water at elevated temperatures . . . this can be the answer to your problem!

The illustration above (Fig. 1) shows a standard type Dura Seal equipped with Circulating Ring feature in a water-jacketed stuffing box.

The Circulating Ring (Fig. 2) circulates the liquid from the stuffing box through a heat exchanger and returns it to the stuffing box at reduced temperature.

Two desirable functions are served with this continuous circulation of water: (1) the liquid is kept below temperature that creates precipitation of salts, minerals and other impurities that cause rapid wear to seal faces, and (2) cooling of the liquid reduces the possibility of "flashing" — protecting seal faces from running "dry".

Circulating Dura Seals are available for pressures up to 2000 p.s.i. and pumping temperatures up to 750° F.

Let me send you more details on this tested and approved Circulating mechanical seal — just write for a copy of Bulletin No. 487 PG

IN CANADA—ST. THOMAS, ONT.

the
cancer
nobody
talks
about
takes
more
lives

in this country than any other type of cancer. Because so many people ignore its symptoms. Or hope they will "go away." Or expect to do something "tomorrow." In short, they avoid the one thing that will help—seeing their doctors.

For cancer of the colon and rectum can be cured in 3 out of 4 patients when discovered early and treated properly. Its danger signs—change in bowel habits or unusual bleeding—call for prompt medical examination. It may not be cancer, but only a physician will know.

Every adult man and woman can have life-saving protection from cancer of the colon and rectum. An annual health checkup, including digital and proctoscopic examinations, can detect this cancer **before any symptoms appear.**

Call your local American Cancer Society Unit for more information and material on this subject.
